# Increasing Ability to Support Industry Change

# Our Change Management Process: A Key Enabler for our Member's Success

# Our CI/CD Process

---

Fetch data dictionary from LIXILab tickets

---

Generate the draft schemas (XML and JSON)

---

Schemas are tested against library of samples

---

Classes are generated in Java, C#, Python, TypeScript

---

Classes are tested against valid and invalid samples

---

LIXI2 XML viewers and editors created

---

Interactive tutorials generated (Customisable Forms)

---

XML to JSON Converter

---

Demo APIs relaunched

# Our Change Management Process: A Key Enabler for our Member's Success

# Raising a Change Request

# The Newest LIXI2 Standards

# LIXI2 Application Fraud Detection (AFD)

# New Standards for NZ

Credit Decisioning

Serviceability

Account Creation

1. Easy to execute changes to standards
2. Easy of absorb changes to standards
